Before the relevant guarantee is released, the Company has the right to jointly manage Ulica in the manner stipulated in the equity Transfer Contract, such as appointing a fund director.

We believe that the related guarantee risks mentioned above are controllable and will not harm the interests of the Company and all shareholders. We agree to this related guarantee.

The Board of Supervisors is of the view that: The deposit business handled by the Company in Chouzhou Bank is a normal fund storage business carried out in banking and financial institutions. The deposit interest rate is determined according to commercial principles and is based on the conditions of similar transactions with non-related parties. The pricing is fair and there is no situation that harms the interests of the Company or shareholders. We agree to the estimated amount of daily connected party transactions mentioned above.

In accordance with the Administrative Measures for Equity Incentive of Listed Companies and the Share Options and Restricted Share Incentive Plan of Ningbo Shanshan Co., Ltd. for the Year 2022 (Revised Draft) and the authorization of the First Extraordinary General Meeting of shareholders in 2022, the BOD of the Company agreed to cancel or repurchase and cancel the total 10,491,670 share options and 4,381,555 restricted shares corresponding to the failure to achieve the performance assessment indicators in the second exercise/release of restricted sales period and the fact that the incentive targets no longer qualify as the incentive targets due to resignation or retirement. The specific details are as follows:

(1) Failure to achieve performance assessment indicators in the second exercise/release of restricted sales period

According to relevant data in 2023 audit report of the Company issued by BDO China Shu Lun Pan Certified Public Accountants LLP, the Company's performance assessment indicators for the second exercise/release of restricted sales period did not meet the exercise/release of restricted sales conditions, mainly due to the impact of industry changes, product prices have declined year-on-year, resulting in lower-than-expected revenue growth for the Company. Therefore, the Company proposes to cancel all share options/restricted shares in the second exercise/release of restricted sales period of all incentive targets that have been granted but have not yet been exercised/released of restricted sales. The repurchase price of restricted shares will be the sum of the price of RMB 13.46/share and the bank deposit interest in the same period.

If the company has completed the 2023 annual equity distribution plan before the actual repurchase, the repurchase price per share of restricted shares will be correspondingly reduced by the amount of cash dividends per share already implemented.

In summary, the total number of share options to be cancelled this time is 10,491,670, among which the numbers of share options to be cancelled in the no.2, no.3 and no.4 exercise periods are 10,038,070, 226,800 and 226,800 respectively.
